

Product Profile

OZGEN® C, E AND AR SERIES OZONATORS

Ozgen® is quickly becoming one of the world's preferred methods of chemical oxidation. Environmentally-friendly ozone has a wide range of uses and offers many advantage over traditional chemical oxidants such as chlorine.

DESCRIPTION

The Ozgen® C and E Series ozonator, or economic ozonator, designed as a variation of highly successful AR Series, provides a low cost alternative without compromising safety or reliability.

Compact in its design, the C and E Series ozonator houses all its components in a single cabinet.

The C and E Series incorporates state-of-the-art electronic controls, providing power-efficient ozone generation ad high degree of automation. C and E Series ozonators are available with Oxidation Reduction Potential (ORP) controls featuring microprocessor feedback functions.

FEATURES

- Energy efficient
- Low maintenance requirements
- Fail safe protection systems
- Modern power electronics
- P.L.C. controlled
- Modular design
- 0 to 100% output regulation
- Suit all voltage/ frequency main power supplies
- Pressure or vacuum air feed
- Air or oxygen feed
- Water cooled generation cells
- Corona discharge ozone production

MAJOR APPLICATIONS

- Potable Water Treatment
- Industrial Applications
- Sewage Treatment
- Odour Control
- Cooling Water Treatment
- Marine Life Treatment
- Ultrapure Water
- Swimming Pool Treatment

- Effective
- Safe
- Environmentally Friendly
